They not only engage in it they protect the truth from coming out so that they can continue abusing children. It is also a practice of sacrificing young virgins to the gods. In this case it includes using children which has always been a practice of these evil gods. Today it is being practiced by the Global Elite who are the hybrid descendents of "the god." and that includes Jeffery Epstein who appears to be a Jewish Mossad agent.

Angels have NO flesh (Ephesians 6:12). All fallen angels can do to make a Naphíl is to possess a man or a woman during cohabitation.
Ephesians 6:12
For we do not wrestle against flesh and blood, but against the... spiritual forces of evil in the heavenly places.

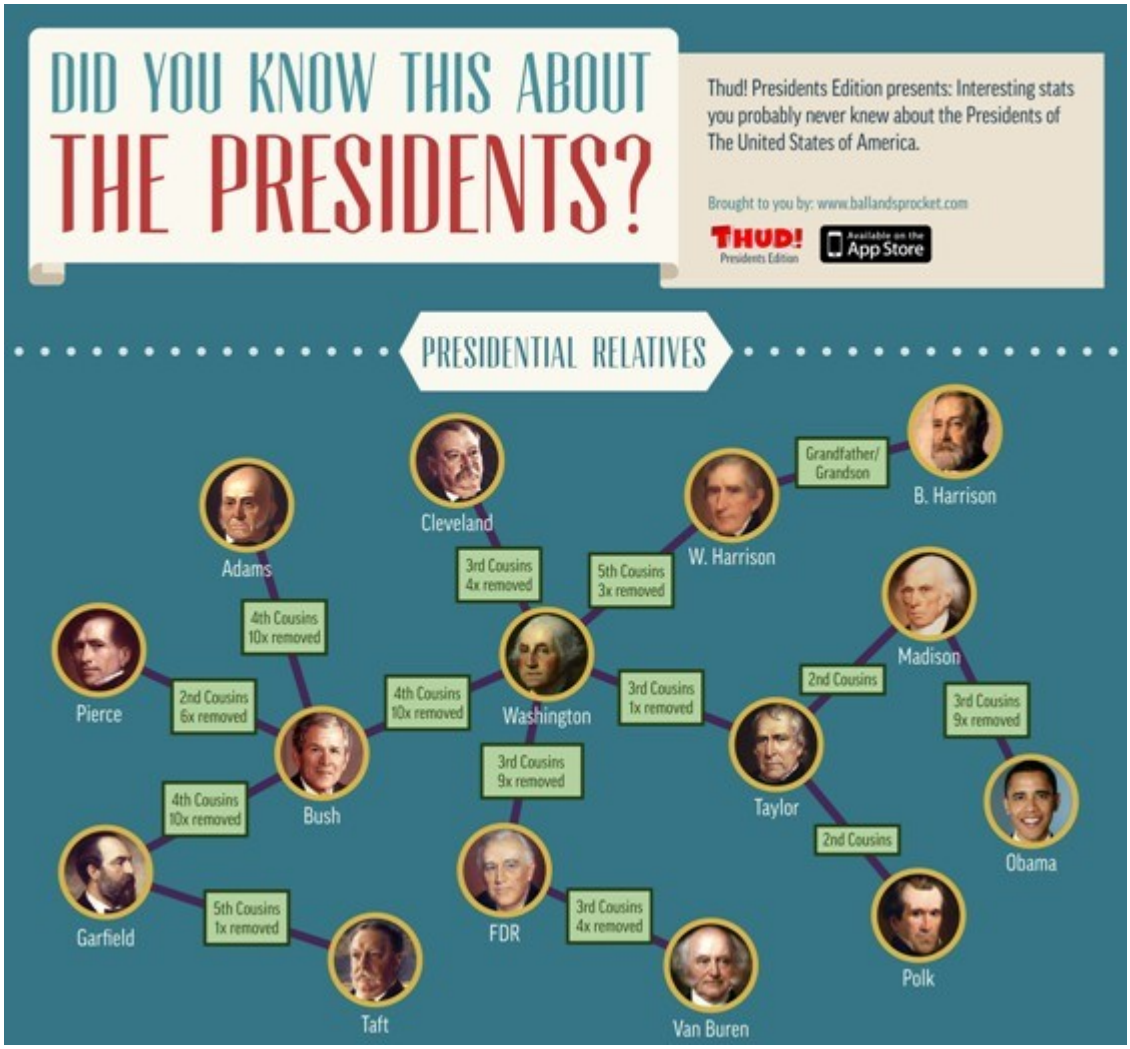
"The gods" were aliens, the Fallen Watchers, the Elohim gods of the Hebrew tribes and Yahweh Ildabaoth the Demiurge YHWH the god of the Jews in the Old Testament etc. YES THEY ARE STILL ALIVE AND KICKING TODAY. Every culture has their own names for these evil other dimensional beings that contaminated the gene pools with their DNA and "other" DNA.

They created hybrid races whose descendents today are the GLOBAL ELITE bloodlines. In the Old Testament the sons of "the gods" were the Nephilim whose descendents are also part of the Global Elite NWO. IT'S ALL ABOUT WHAT'S IN YOUR BLOOD AKA DNA.

To become rich and powerful today it's not your expertise that enables you to climb the ladder, it's who you are related to and what's in your Blood . What DNA do you carry depends on how you can be manipulated by "the gods etc.

Did you know that most of our presidents are related to each other by blood and that they are descendents of an English King? They are the descendents of "the gods" by blood aka DNA. It's about the DNA and their blood.

If you want to take on child exploitation, it STARTS AT THE TOP FOLKS. It goes on in agencies that we think are beyond reproach such as agencies that place children who are orphans. These agencies mingle with the Global Elite. Jeffrey Epstein tried to float in Trumps circle to engage in his networking. It's all about the money, who you know, who you are related to and who has your back. It's about knowing how to make connections in order to exploit children and it's about kidnapping children.



Scholars suggest Human DNA shows signs of being an Invasive Extraterrestrial Parasite

Many scientists have documented that over 95% of Human DNA does not have a known purpose. This DNA has been colloquially referred to as "Junk DNA".

Up to 97% of the human genetic information (DNA) is seemingly needless, repetitive "junk" - only about 3% is known to generate proteins, deserving the name "gene". The rest used to be called "junk DNA", lately renamed as "non-coding introns", sometimes labelled by the mysterious, though not very explicit description that these self-similar strands "regulate gene expression". LINK

However, other researchers have not been content to simply classify this predominant part of DNA as "one of life's mysteries". Scholarly groups at the forefront of investigative researchers are gathering details which suggest that DNA may not substantively exist as a "building block of life". Rather, it appears that the substantive function of DNA is to act as a "parasitic inhibitor" and "regulator" of life on planet Earth.

Dr. John Lash documents, for example, in metahistory.org:

Recent work by Russian biologist Piotr Garjajev and some Russian linguistic experts suggests the same thing, and, more specifically, this research may show that junk DNA, rather than being a discard, is “a computer hologram that works with laser-type radiations.” In short, DNA is an extraordinary generator of perceptions, an instrument of virtual reality.

By accepting the link between DNA and emotional and mental activities, we may begin to imagine DNA as a

complex program that directs the life process (regulating our metabolism, for instance), but impedes our consciousness from complete manifestation. LINK

Research testimony that includes ancient representations, suggest that DNA was implanted in humanity by Manipulative Extraterrestrials. The fact that over 95% of DNA does not support vital biological living processes suggest that it is conceivable for biological life to exist without any DNA.

More than 95 % of all DNA, had been first called "Junk DNA" by molecular biologists, because they were unable to ascribe any function to it. They assumed that it was just "molecular garbage". But, if it were "junk", the sequence of the "syllables", i.e. the nucleotides in DNA should be completely random. However it has been found that the sequence of the syllables is not random at all and has a striking resemblance with the structure of language (ref. Flam, F. "Hints of a language in junk DNA", Science 266:1320, 1994), that is alien to humanity. Scientists now generally believe that this DNA must contain some kind of coded information.

You might wonder, what understanding of our human origins could account for the parasitic implanting of DNA into biological life on planet Earth? Indeed, this further inspires the question; who are we? What are our origins; why do we exist' and from that context, where are we going? For starters, it is vital that we as humanity begin to question the "understandings" of reality, that have been presented to us, by elites who have been documented time again, for spinning a "web of deceit". In this context, it is also correspondingly vital to critically consider prospective new insights, irrespective of how much the Establishment responds with denial.

The existence of historical and on-going Extraterrestrial contact with Earthbound humanity, has been at the forefront of this denial. Indeed, the

alleged contactees of both Manipulative and Ethical Extraterrestrials offer insights into a context of genetic manipulation within biotic life on Earth.

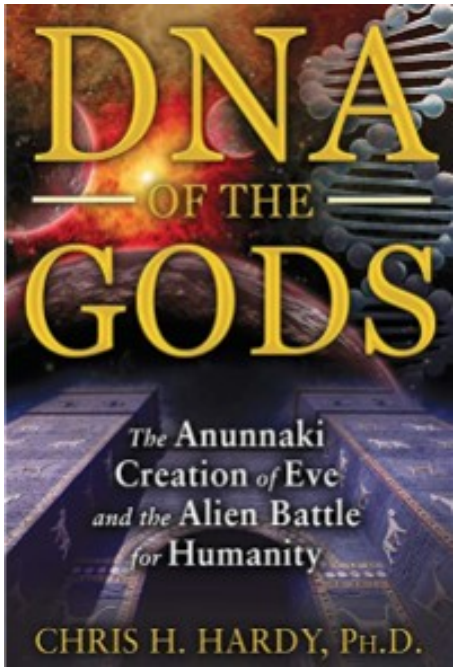
The article titled "Scholars suggest Extraterrestrial-like DNA fractals floating in the Human Gene Pool" explored fractals as evidence that Manipulative Extraterrestrials may have sought to genetically manipulate and control humanity. LINK. A group of researchers associated with Fractogene.com document these apparent similar artificial "fractal signatures" across different biotic life forms on Earth:

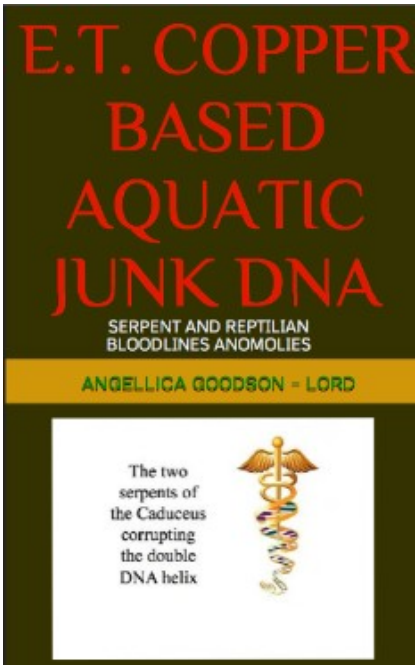
This uncertainity if "junk DNA" is really "junk", that caught some scientists by surprise, is now history. Indeed, scientists were never quite sure that any part of DNA could be discarded outright, and even the question was raised if introns might play a role in evolution, see Mattick, 1994., Klyce, 2002). The bombshell of the 5th of December issue of the highly reputed Nature 420, 509 (2002) revealed that the 99% of the genes of the mouse have direct equivalents with the humane genes. What does this mean?

FractoGene's pending patent, conceives life on Earth as being linked to a fractal elaboration of a gene by its introns (the fractal model of Purkinje cell was published by Pellionisz, 1989). In so doing, Fractogene seems to have stumbled upon "introns" as Manipulative Extraterrestrial signature of the demonic inorganic mechanical intelligence that ancient pagan Gnostic referred to as "artificial man" or the "archons". Introns, derived from the term "intragenic regions" and also called intervening sequence (IVS), are DNA regions in a gene that are not translated into proteins.

Many studies have documented evidence that introns are either directly or indirectly involved in cancer causation, and other diseases. Mutations in the introns have been specifically linked to cancerous "tumorigenesis progression."

Among the many other intron genetic variations that have been linked to cancer (in this case lung cancer) is a K-ras intron variation involving tandem repeats in the H-ras 3'-untranslated region. Mutations in introns may influence neoplasm development because mutations that occur in introns (or in the DNA sequences that flank the gene) can affect the various steps required for normal expression of the gene even though the intron codes may not be detectable by studies of the protein product of the gene. If the defective expression of a gene product is a tumour suppressor gene or a proto-oncogene, cancer may result.





Key Aspects and Meanings of Nephilim

- **Definition & Etymology:** Derived from the Hebrew root *naphal* ("to fall"), they are often interpreted as "the fallen ones," "those who fall [upon enemies]," or "those causing others to fall".
- **Biblical Context:** They appear in two main instances: before the Flood (Genesis 6:4) and as the Anakim, or giants, encountered by Hebrew spies in Canaan (Numbers 13:33), causing the spies to feel like "grasshoppers".
- **Common Interpretations:**
  - **Offspring of Angels and Humans:** A popular interpretation (often linked to the Book of Enoch) is that they were the result of fallen angels (sons of God) marrying human women.
  - **Violent Tyrants/Heroes:** They are described as renowned "heroes of old" or "mighty men".
  - **Descendants of Seth/Cain:** Some interpretations suggest they were the wicked offspring of the line of Cain (or Seth) intermarrying with the wrong groups.
- **Synonyms and Related Terms:**
  - **Giants:** The most common translation in the Septuagint and Latin Vulgate.
  - **Anakim/Rephaim:** Other biblical, giant-like races linked to the Nephilim.
  - **Gibborim:** Mighty men or warriors, often used to describe them.
  - **The Fallen Ones:** Literal interpretation of the name.
